Journal of Forecasting, Vol. 11, v–viii (1992)

Contents

Volume 11, Issue Nos 1–8
JOURNAL OF FORECASTING

Issue No. 1, January

On the Problem of Forecasting Prior to 'Price' Control and Decontrol: *N. S. Revankar* 1

Is it Possible to Find an Econometric Law that Works Well in Explanation and Prediction? The Case of Australian Money Demand: *P. A. V. B. Swamy and G. S. Tavlas* 17

Scoring the Composite Leading Indicators: A Bayesian Turning Points Approach: *J. P. Lesage* 35

Exponential Smoothing: Behaviour of the *ex post* Sum of Squares near 0 and 1: *N. R. Farnum* 47

Robust Exponential Smoothing: *T. Cipra* 57

Using the Bootstrap for Improved ARIMA Model Identification: *A. D. Aczel and N. H, Josephy* 71

Comments on 'Quality/Value Relationships for Imperfect Weather Forecasts' by Katz and Murphy: *R. M. Oliver* 81

Response to R. M. Oliver's Comments: *R. W. Katz and A. H. Murphy* 86

Announcements 89

Indexed or abstracted by 'Anbar Abstracts', 'COREJ', 'Cambridge Sci. Abstracts', 'Current Contents', 'Current Index to Statistics', 'Executive Sciences Inst. Inc.', 'Int. Abst. in Operations Research', 'Management Contents Inc.', 'Public Affairs Info Service', 'Social Sciences Citation Index', 'Sociological Abstracts Inc.', 'Statistical Theory & Method Abstracts', 'VINITI-USSR Acad. of Sciences'.

Issue No. 2, February

Co-Integration, Error Correction and Improved Medium-term Regional VAR Forecasting: *G. L. Shoesmith* 91

Time-series Forecasting of the German Unemployment Rate: *M. Funke* 111

Forecasting the Federal Budget with Time-series Models: *H. Baghestani and R. McNown* 127

Quasi-rational Expectations: Experimental Evidence: *R. G. Nelson and D. A. Bessler* 141

Estimating the Strength of Expert Judgement: The Case of US Mortality Forecasts: *J. M. Alho* 157

Conservatism and Consensus-seeking among Economic Forecasters: *R. Batchelor and P. Dua* 169

Issue No. 3, April

A Comparison of Models for Forecasting the Discovery of Hydrocarbon Deposits: *M. Power and J. D. Fuller* 183

Technological Forecasting with Nonlinear Models: *J. C. Lee, K. W. Lu and S. C. Horng* 195

A Model to Predict Mid-air and Near-Mid-air Collisions: *K. Datta and R. M. Oliver* 207

Simultaneous Equation Estimates of Electricity Demand for the Rural South: Revenue Projection when Prices are Administered: *J. R. McKean and W. D. Winger* 225

Modelling Peak Electricity Demand: *R. F. Engle, C. Mustafa and J. Rice* 241

Announcements and Call for Papers 253

Issue No. 4, June

Seasonality in Large-scale Macroeconometric Models: *P. G. Fisher and K. F. Wallis* 255

Temporal Aggregation and Systematic Sampling in Structural Time-series Models: *P. González* 271

Analysis and Forecasting of Income Statement Account Balances. The Dynamic Interdependency and ARIMA Approaches: *W. T. Lin* 283

Nonlinear Predictor Models: *J. R. M. Ameen* 309

A Note on Diagrams for Turning-point Diagnostics: *S. B. Jarrell and T. D. Stanley* 325

Issue No. 5, August

Special Issue on European Macro-Econometric Modelling of the World Economy
Editors: R. Barrell and J. Le Dem

Preface: *R. Barrell and J. Le Dem* 331

Modelling the World Economy: The European Perspective: M. Artis and S. Holly 333

Structural Adjustment in the UK and Europe under the ERM: *G. P. Meen* . . 341

The Real Exchange Rate, Fiscal Policy and the Role of Wealth: An Analysis of Equilibrium in a Monetary Union: *R. Barrell, J. W. In't Veld and A. Gurney* . . . 361

Simulating the European Economies under Alternative Monetary Policy Assumptions: *P. Richardson* 389

Comparative Simulation Analysis of the European Multi-country Models: *J. D. Whitley* 423

Domestic and International Macroeconomic Effects of German Economic and Monetary Union: Simulations on QUEST: *G. A. Horn, W. Scheremet and R. Zwiener* 459

Oil Shocks: How Can OECD Countries Manage Them Best?: *H. Delessy and H. Harasty* 491

Issue No. 6, September

ARIMA Models of the Price Level: An Assessment of the Multilevel Adaptive Learning Process in the USA: *P. Dua and S. C. Ray* 507

The Dynamic and Stochastic Instability of Betas: Implications for Forecasting Stock Returns: *W. T. Lin, Y. H. Chen and J. C. G. Boot* 517

Monitoring for Outliers and Level Shifts in Kalman Filter Implementations of Exponential Smoothing: *N. J. Kirkendall* 543

Prediction in the One-way Error Component Model with Serial Correlation: *B. H. Baltagi and Q. Li* 561

Judgemental Revision of Sales Forecasts: the Relative Performance of Judgementally Revised versus Non-revised Forecasts: *B. P. Mathews and A. Diamantopoulos* 569

Issue No. 7, November

A Flexible Model of Technological Diffusion Incorporating Economic Factors with an Application to the Spread of Colour Television Ownership in the UK: *M. Karshenas and P. Stoneman* 577

Hierarchical Bayes Forecasts of Multinomial Dirichlet Data Applied to Coupon Redemptions: *P. J. Lenk* 603

Variance Estimation for Multivariate Dynamic Linear Models: *E. Barbosa and J. Harrison* 621

Control Charts to Check Yearly Predictions by Monthly Observations: *H. S. van der Knoop* 629

Issue No. 8, December

On Trend Extraction Models: Interpretation, Empirical Evidence and Forecasting Performance: *A. García-Ferrer and J. Del Hoyo* 645

On Trend Extraction Models: Comments on a paper by García-Ferrer and Del Hoyo: *P. C. Young, A. C. Harvey, A. García-Ferrer and J. Del Hoyo* 667

Algorithms for Explaining Forecast Revisions: *R. M. Todd* 675

To Combine or not to Combine? Issues of Combining Forecasts: *F. C. Palm and A. Zellner* 687

The Uses and Abuses of 'Consensus' Forecasts: *S. K. McNees* 703

The Maximum and Minimum of Primary Forecasts: *M. Cain, D. Law and D. A. Peel* 711

On the Sign of the Optimal Combining Weights under the Error-variance Minimizing Criterion: *K.-Y. Liang* 719
